WHERE IT SITS

FEELS

THE IDEA

Imigongo, the Rwandan relief art of nested black, white and ochre bands: the mark is an Amatana diamond drawn in the same bands, the captions are tall caps set as calmly as those bands, and the palette is chocolate, caramel, olive and oat.

ONE LOUD THING

One Imigongo motif per post, cropped at an edge; type and colour stay quiet.

WHERE IT DIFFERS

The reference creators rely on caption type alone; this adds a pattern language with Shay's own roots, which none of them can borrow.

THE MARK

An Amatana diamond from Imigongo: two nested bands around a caramel core, next to SHAY in calm tall caps.

LOGO

The symbol + wordmark is the primary logo. Use it wherever the space allows; every other version is derived from it.

CLEAR SPACE

Keep at least $x = 1 \times$ the wordmark's cap height free on every side. (inferred from the drawing; confirm before print)

- Use the supplied files in kit/logo; never retype or redraw the wordmark.
- Scale proportionally, from the corner.
- The guide lines show the cap height and baseline the lockup is aligned on.

LOGO

Pick the version by the space, not by taste. When the primary logo would render smaller than 20 px tall, switch to the symbol.

Primary

Horizontal lockup. The default for headers, documents and signage.

Stacked

For square and narrow spaces where the horizontal lockup gets too small.

Symbol

On its own only where the brand is already named nearby: avatars, app icons.

Favicon

The symbol on the primary colour at 48, 32 and 16 px.

Every logo part keeps at least 3:1 against its ground. Where the colours cannot, the logo switches to one colour.

COLOURS

Band heights show how much of each colour a typical page uses. Large areas take the ground and primary; the accent stays small.

PRINT

Screen values are exact. For print, ask your printer for CMYK/Pantone matches made with their profile; the Lab D50 values are the reference to match against.

TINTS

80, 50 and 20% for charts and backgrounds only, never for text.

ICONS

- 24 px grid, 2 px padding, 1.75 px stroke.
- Round caps and joins; no fills except for a selected state.
- Icons take the ink or primary colour, never the accent.
- Sample set shown in the system style; draw new icons to match.

IMAGERY

- Real people, real places; natural light.
- Duotone in the primary and ink for backgrounds behind text.
- The accent appears in pictures only where it already exists in the scene.
- No stock clichés: no handshakes, no glowing orbs.
